GWN TARIFF 100 GENERAL RULES

ITEM 100 GENERAL - PAYMENT OF TARIFF CHARGES

Any and all charges assessed pursuant to this tariff shall be paid by the party paying the transportation charges (also referred to herein as “**the Customer**”) whether that party is the shipper, consignor, consignee, receiver or a third party and notwithstanding who requested or required the service. This item does not constitute an estoppel, waiver, or shall be interpreted in any way that would impede any right the carrier may have to collect or be reimbursed for transportation charges or charges pursuant to this tariff from the consignor, consignee or other parties except that the carrier is not entitled to be paid more than once for the same charge.

ITEM 110 GENERAL - DEFINITION OF CARRIER

Accessorial charges herein apply when the service involved is performed by GARDEWINE GROUP LIMITED PARTNERSHIP including any and all subsidiaries, divisions or business units (hereinafter referred to as “**the Carrier**”). When the service is performed by a railroad, interline carrier, or other agent, the published charges of that carrier or agent will be assessed if they exceed the charges contained herein.

ITEM 120 GENERAL - DEFINITION OF CONSIGNEE AND CONSIGNOR

“Consignor” as used in this tariff means the party from whom the carrier receives the shipment, or any part thereof, for the transportation at point of origin, or any stop-off point, whether he be original consignor, or warehouseman, or connecting motor, rail or water carrier, with which the carrier does not maintain joint through rates, or other person to whom the Bill of Lading is issued.

“Consignee” as used in this tariff means the party to whom the carrier is required, by the Bill of Lading or other instructions, to deliver the shipment, or any part thereof, at destination or any stop-off point whether he be ultimate consignee, or warehouseman, or connecting motor, rail or water carrier with whom the carrier does not maintain joint through rates or other person designated in the Bill of Lading.

ITEM 130 GENERAL - UNFORSEEN EXPENSES

This tariff covers common charges but is not intended to be comprehensive and the carrier is entitled to be compensated for any and all expenses, charges, fees, penalties, fines, tolls, public charges etc. incurred in the performance of a transportation service and for all other expenses required to secure, deliver or handle any shipment that is not covered specifically by this tariff. These charges will be assessed against and shall be paid by the Customer. The carrier may assess a service fee in addition to the expenses.

ITEM 140 GENERAL - APPLICATION OF RATES

Rates governed by the provisions of this Tariff are subject to the following:

- (A) A shipment is a quantity of freight received from one shipper, on one shipping order or Bill of Lading, at one shipping point, at one time, for one consignee at one destination. Two or more shipments shall not be combined and rated as one shipment but must be carried as separate shipments and at not less than the established charge for each shipment.
- (B) An LTL shipment is a shipment whose billed weight is less than that required to make the shipment subject to a truckload rate.
- (C) Truckload charges or rates apply only when a truckload of freight is shipped from one point, in or on one truck, in one day, by one shipper for delivery to one consignee, at one destination and only when the entire truckload freight charges are payable by one party. Only one Bill of Lading from one loading point and one freight bill shall be issued for such truckload shipment. The minimum truckload weight provided is the lowest weight on which the truckload rating or rate will apply.
- (D) Unless specifically provided otherwise in a published tariff or quote, the carrier’s tariff rates shall apply.
- (E) Unless otherwise provided, charges shall be computed on the rateable weight or the rateable density of 14 pounds per cube foot unless a different rateable density is agreed in writing between the Carrier and the Customer.
- (F) Rates are not applicable for combination rate purposes where there are through rates published. When a local or joint through rate is established for application over any route from origin to destination, such rate is the one that will be applied, notwithstanding that it may be higher than existing combinations of rates over such route.
- (G) Except as otherwise provided, all rates and charges herein are expressed in Canadian Currency. Except as otherwise provided, payment of freight charges for intra Canada shipments will be in Canadian Currency.
- (H) All accessorial charges contained in this tariff apply in addition to the applicable freight charges for a shipment.
- (I) Rates are subject to all applicable taxes.
- (J) Rates are subject to application of Carbon Surcharge in the event a Carbon Levy or Tax is implemented by any Government Authority.
- (K) Rates provided to Interline Carriers shall apply only to shipments not originating and delivering within the Gardewine Service Network.

ITEM 150 GENERAL - REASONABLE AND DILIGENT EFFORTS

The carrier shall make reasonable and diligent efforts to provide the services referred to in this tariff but this tariff shall not be construed so as to require or compel the carrier to perform such service at any cost, at any risk or in any event. Furthermore, charges must be either paid in advance or guaranteed to the satisfaction of the carrier before the service(s) will be performed. Advertised transit times do not constitute a guarantee of service.

ITEM 160 GENERAL - MILEAGES

The calculation of mileages as referred to herein shall be determined by the use of the current applicable official Provincial road map and mileage tables published by PC Miler.

ITEM 170 GENERAL - CHARGES AND RIGHTS ARE CUMULATIVE

Charges under this tariff are cumulative and not exclusive and will be assessed in addition to any and all other lawful and applicable charges and fees provided herein. All rights conferred upon the Carrier by this tariff, conditions of carriage and/or by law shall be cumulative and in addition to every other right or remedy available to the carrier.

ITEM 180 GENERAL - RATE ESCALATION

Rate agreements, while subject to an annual review, will be increased annually by the greater of either the Gardewine Group General Tariff Increase or the Provincial Consumer Price Index (excluding energy) posted on the Government of Canada website at: <http://www.statcan.gc.ca/tables-tableaux/sum-som/l01/cst01/cpis01g-eng.htm>

The carrier reserves the right to inspect shipments where necessary to determine proper ratings. When found to be incorrectly described, charges will be collected according to proper description plus any additional applicable charges for reweighing, measuring, examination, etc. as contained in this tariff.

ITEM 210 BILL OF LADING - CARRIER B.O.L. APPLIES

Unless otherwise agreed to in writing, the conditions of carriage shall be those as indicated in the carrier's bill of lading in effect on the date the shipment was tendered to the carrier. ONLY carrier personnel with the title of President or Vice-President are authorized to alter contract terms and conditions. NO other person(s) is (are) authorized whether representing that authority or not. Where a bill of lading, other than the carrier's Bill of Lading, issued by the shipper, is signed for by the carrier's driver or other person(s), that signature ONLY acknowledges receipt of the freight and identifies the delivery details. It is NOT a contract for the carriage of freight. Continued use of an unauthorized bill of lading by the shipper will NOT constitute an implied acceptance by the carrier. Likewise, notations added to a bill of lading by the shippers, which have not been agreed to by authorized carrier personnel, will not be binding on the carrier.

ITEM 220 BILL OF LADING - CHANGE IN TERMS

An authorized change in the terms of the Bill of Lading (e.g. from prepaid to collect, re-consignment, bill to third party, etc.) will be subject to a charge of \$11.52.

- (D) No shipment for which a through rate is published in tariffs subject hereto will be accepted on a partially prepaid or partially collect basis. When failure to comply with this provision is discovered after the shipment has been tendered for transportation, the entire charges, based on applicable through rate, will be assessed.
- (E) If freight charges are to be collected from a third party other than the consignor, shipper, consignee or receiver, then the Bill of Lading must be marked "Prepaid" and a notation made referring to the name and address of the third party to be billed. In such cases the shipper shall be responsible for the payment of all lawful charges accruing against the shipment in the event of non-payment by the third party.

ITEM 310 COLLECTION OF CHARGES - THIRD PARTY BILLING

- (A) When a party other than the consignor or consignee on the Bill of Lading and Shipping Order is responsible for paying the freight charges, such party's name and address must appear in the body of the Bill of Lading and Shipping Order at time of original tender.
- (B) Shipments subject to the provisions of this Item will be accepted only when the consignor has established credit with the originating carrier and guarantees to pay all lawfully accrued charges if the third party fails to do so within the time legally allowed.
- (C) In the event that the paying party refuses or is unable to pay any amounts due, the carrier is entitled to payment from the consignor(s) or consignee(s), as the case may be, for all amounts due, including, but not limited to, all unpaid charges, fines, penalties, damages, attorney fees, or other costs which may be incurred by the carrier.

GWN TARIFF 100 GENERAL RULES

- (D) In the event that the paying party is a load broker, the load broker shall hold in trust, for the benefit of the carrier, all the money the load broker receives from shipper(s), consignors and/or consignees in respect of the transportation and related services provided by the carrier. The load broker shall maintain these amounts in an account designated as a trust account in a bank, trust corporation or credit union, shall keep the money held separate from money that belongs to the load broker, deposit any money received in the trust account without delay after its receipt, and disburse the money to the carrier subject to the terms and conditions above.

NOTE 1: Shipments subject to the provisions of this Item must be billed as "PREPAID".

NOTE 2: When consignor or consignee instruct the carrier to bill the freight charges to a third party and such information is not shown on the Bill of Lading at the time of shipment, an additional charge of \$11.52 will be assessed for a new billing in addition to all other applicable charges. The additional charges will be assessed against the third party.

(F) C.O.D. shipments will not be accepted with the privilege of examination or trial, or bearing instructions to make partial delivery.
(G) The amount of C.O.D. bills for C.O.D. shipments must be collected at the time such shipments are delivered to the consignee.
