

July 6, 2026

To Our Valued General Freight Customers,

Due to heavy rainfall and flooding in Western Manitoba, service disruptions and delays are currently affecting some areas.

Current Service Impacts

- **Swan River and surrounding communities:**
 - Service is returning to most communities around Swan River. Delays may continue due to freight backlogs and required detours.
 - Freight destined for Barrows remains on hold due to flooding conditions.
 - Freight destined for Swan River will continue to be subject to the SRW surcharge outlined below.
- **Dauphin and surrounding areas:**
 - Service is returning to most communities around Dauphin. Delays may continue due to freight backlogs and required detours.
 - Freight destined for Camperville, Duck Bay, Ethelbert, and Pine Creek remains on hold due to flooding conditions.

Swan River Washout Surcharge

- All LTL shipments will be diverted using highway 16 and 9, adding 171 kilometres (one-way), will be subject to a temporary Swan River Washout (SRW) surcharge of \$4.24/CWT with a minimum charge of \$21.20 per shipment, to a maximum of \$848.00 per shipment. All LTL flat deck shipments will see the same maximum surcharge of \$848.00 and that surcharge will be pro-rated based on the rated linear footage of the LTL shipment. A minimum surcharge of \$62.59 per shipment will apply to all flat deck shipments.

We are actively monitoring conditions and will provide updates as new information becomes available.
