

July 1, 2026

To Our Valued General Freight Customers,

Due to heavy rainfall and flooding in Western Manitoba, service disruptions and delays are currently affecting some areas.

Current Service Impacts

- **Swan River and surrounding communities:** All freight destined for these locations is being held at our Winnipeg terminal until conditions improve.
- **Dauphin and surrounding areas:** Service will continue within the **City of Dauphin** and to locations **southeast of Dauphin**. However, freight destined for other outlying communities in the Dauphin region will be held in Winnipeg until further notice.

We are actively monitoring conditions and will provide updates as new information becomes available.
